PERSONAL INSIGHT QUESTIONS: GUIDE FOR FRESHMAN APPLICANTS

UNIVERSITY
OF
CALIFORNIA

Getting started

This worksheet is designed to help freshman applicants start the writing process for the personal insight questions in the undergraduate admissions application. Additional hints and suggestions can be found on UC's admissions website at ucal.us/personalquestions.

What are the personal insight questions?

These questions are about getting to know you better — your life experience, interests, ambitions and inspirations. Think of it as your interview with the admissions office. Be open. Be reflective. Find your individual voice and express it.

While this section of the application is just one part we consider when making our admission decision, it helps provide context for the rest of your application.

The basics

- You will have 8 questions to choose from. You must respond to any 4 of the 8 questions.
- Each response is limited to a maximum of 350 words.
- Which questions you choose to answer is entirely up to you: But you should select questions that are most relevant to your experience and that best reflect your individual circumstances.
- All questions are equal: All questions are given equal consideration in the application review process, which means there is no advantage or disadvantage to choosing certain questions over others.

Freshman questions & brainstorm exercise

The following exercises are suggestions to help you get started. Remember, you don't have to answer all eight questions – you only need to answer four. So if some questions aren't the right fit for you, that's OK. The important thing is expressing who are you, what matters to you and what you want to share with UC.

1. Describe an example of your leadership experience in which you have positively influenced others, helped resolve disputes, or contributed to group efforts over time.

How do you define "leader"? List three words that you think describe what a leader is:

- 1.
- 2.
- 3.

Do any of these words apply to you? How? Is there a time in your life when you displayed any of these traits?

2. Every person has a creative side, and it can be expressed in many ways: problem solving, original and innovative thinking, and artistically, to name a few. Describe how you express your creative side.

Can you think of a time your viewpoint was unique compared to others? What was the issue or problem from your perspective? Now think of the same situation from the perspective of another person who was there with you. How was your approach different from that other person's?

Was there ever a problem where your imagination and intuition guided you to the solution?

Do you have a passion for music, theater, visual art, dance, etc.? What have you gained from it that has affected other parts of your life?

3. What would you say is your greatest talent or skill? How have you developed and demonstrated that talent over time?

List three of your talents or skills:

- 1.
- 2.
- 3.

Were these talents or skills the same a few years ago? What changed? What improved?

Which one of the three talents or skills you listed is the most meaningful or important to you and why? Does the talent come naturally or have you worked hard to develop this skill or talent?

4. Describe how you have taken advantage of a significant educational opportunity or worked to overcome an educational barrier you have faced.

Feel free to speak about either an opportunity or a barrier. It's OK if you've experienced one and not the other.

EDUCATIONAL OPPORTUNITIES:

List any programs or additional classes that have better prepared you for college:

- 1.
- 2.
- 3.

How did you find out about these programs or classes? How did you take what you learned and apply it to your schoolwork or other aspects of your life?

EDUCATIONAL BARRIERS:

Have you faced any barriers or challenges related to school and/or your schoolwork? How did you overcome or strive to overcome them? List three personal characteristics or skills you had to call on to overcome this challenge:

- 1.
- 2.
- 3.

5. Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge. How has this challenge affected your academic achievement?

Have you had a difficult experience in your life? How did you get through it? What did you learn going through this experience? If you're currently working your way through a challenge, what are you doing now and does that affect different aspects of your life? For example, ask yourself, "How has my life changed at home, at my school, with my friends, or with my family?"

6. Think about an academic subject that inspires you. Describe how you have furthered this interest inside and/or outside of the classroom.

Think about all of the classes you've taken at school. Now fill in the blank: I would go to [class name] even if I didn't have to.

It doesn't have to be a class in which you've earned good grades – the important thing is you enjoyed the subject and it impacted you in some way.

(#6 continued)

Maybe there's a course you *haven't* taken at school that you wish you did take or are looking forward to taking in college. How have you pursued your interest in that subject outside of school?

7. What have you done to make your school or your community a better place?

Did you contribute to a positive change at your school or in your community? What steps have you taken to accomplish this? Remember, even small changes can have a big impact. Why were you inspired to act? What did you learn from your effort?

8. Beyond what has already been shared in your application, what do you believe makes you stand out as a strong candidate for admissions to the University of California?

From your point of view, what do you feel makes you an excellent choice for UC? Don't be afraid to brag a little. Here are a few lists to help you get started.

What do you value in your life? What's important to you? List three of them here:

- 1.
- 2.
- 3.

What are you passionate about?

- 1.
- 2.
- 3.

When you attend UC, what three things are you most looking forward to?

- 1.
- 2.
- 3.

Does anything overlap? Is there anything from the lists that you want to expand on?

Next steps

As you filled out the worksheet, were there any topics that seemed particularly interesting? You might consider answering those questions as part of your application. But the choice is yours! Take your time in selecting which questions to answer and how to answer them. For more information, visit our website at ucal.us/personalquestions.

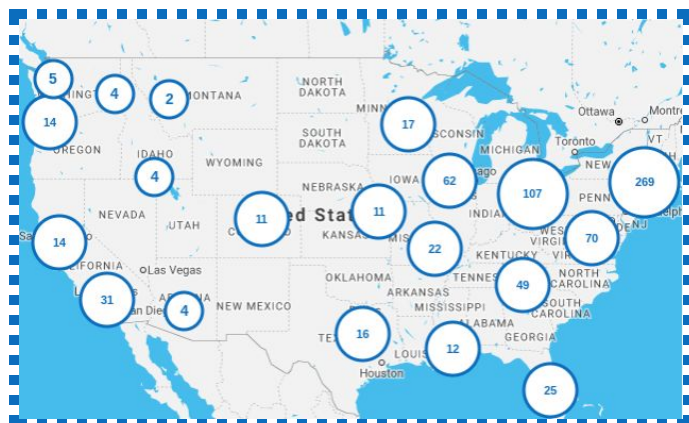

EOP Biographical Questions

The biographical questions listed below are included in the EOP application. It is recommended that you prepare your responses in advance and ask a teacher and/or counselor to help with proofreading. Having completed responses in advance will save time when completing the EOP application.

Answers to these questions will help EOP determine your eligibility to the program. Please be sure to respond as precisely and honestly as possible and expand on each answer. Use complete sentences and avoid responses such as "yes" or "no." *Responses to each question have a 2500-character limit.*

1. Briefly describe your family's economic background. Include information about your financial challenges.
2. Why would you like to attend college? Discuss your career and personal goals. Are there any particular circumstances, school experiences, or persons that influenced your preparation or motivation to attend college (e.g., cultural/financial background, family, teachers, schools you attended)? Please explain.
3. Briefly discuss your academic background. Did you utilize any additional support at your high school, such as tutoring? Do your grades in high school and/or college reflect your academic ability or potential?
4. List any volunteer, extracurricular activities, or work experience in which you are or have been involved in the past two years.
5. Is there any additional information you would like EOP to consider in determining your admission to the program?

Common App Prompt Questions

The Common Application is an undergraduate college admission application that applicants may use to apply to any of more than 800 member colleges and universities in 49 states and the District of Columbia, as well as in Canada, China, and many European countries. The Common Application essay prompts provide great flexibility for applicants to tell their unique stories in their own voice.

The 2021-2022 Common Application Essay Prompts are as follows:

1. Some students have a background, identity, interest, or talent that is so meaningful they believe their application would be incomplete without it. If this sounds like you, then please share your story.
2. The lessons we take from obstacles we encounter can be fundamental to later success. Recount a time when you faced a challenge, setback, or failure. How did it affect you, and what did you learn from the experience?
3. Reflect on a time when you questioned or challenged a belief or idea. What prompted your thinking? What was the outcome?
4. Reflect on something that someone has done for you that has made you happy or thankful in a surprising way. How has this gratitude affected or motivated you?
5. Discuss an accomplishment, event, or realization that sparked a period of personal growth and a new understanding of yourself or others.
6. Describe a topic, idea, or concept you find so engaging that it makes you lose all track of time. Why does it captivate you? What or who do you turn to when you want to learn more?
7. Share an essay on any topic of your choice. It can be one you've already written, one that responds to a different prompt, or one of your own design.
